Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12 to 18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yoshida et al (6,510,597).

The Yoshida et al reference teaches a potassium niobate used in a device, note reference. The potassium niobate film can be used in a SAW device. The SAW can be part of an electronic device, note col. 1.

Response to Applicants' Arguments

Applicant's arguments with respect to claims 12 to 18 have been considered but are moot in view of the new ground(s) of rejection.

The terminal disclaimer has been accepted and the double patenting rejection has been overcome.
